Trustees Schubert, Ceccanese, and Kirby agreed. Trustee Barth asked what Department of Publics Works (DPW) Director, William “Fritz” Ward, thought. William stated that he found the agenda item to be vague and he was unclear what was to be discussed. President Stolz’s informed him that it was to discuss his refusal to remove snow from the sidewalks as the Village Council had approved the DPW to do and possible disciplinary action. William stated he wants this in writing and wants time to be able to gather information and be prepared for what is being stated. He also asked that the agenda be specific as to what will be talked about. The council agreed that a written statement, along with the agenda, will be provided to William and all Council members at least 24 hours prior to the meeting to be determined. The council, along with William, then discussed a day and time that would work, it was decided that Friday, January 14, 2022, at 6 pm at the Village Hall would work for everyone. The notice will be placed on the website, social media, and posted at the Village Hall tonight, giving over thirty six hours of advanced notice.
